

Fitting The Sign Tray

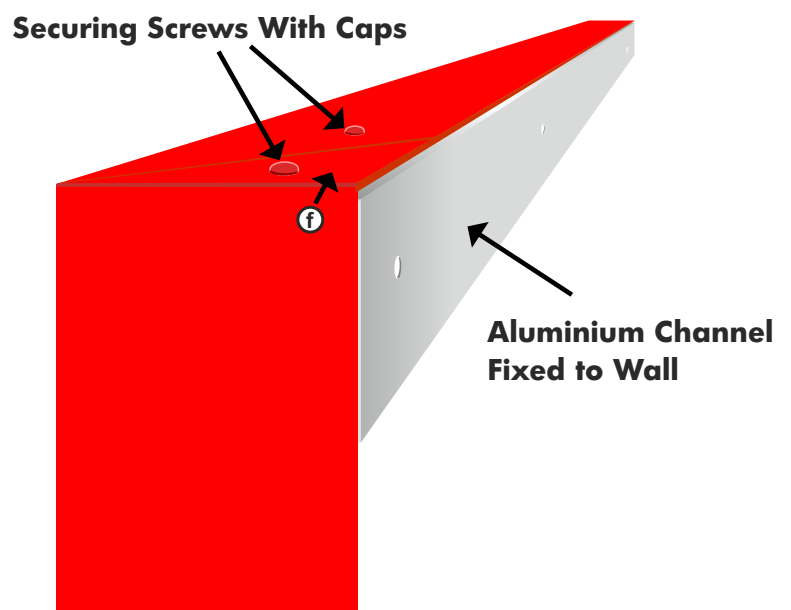

The sign tray is delivered flat. To install follow these steps;

- 1) Fold returns by hand to form tray
- 2) Measure internal depth of the tray face ④
- 3) Affix top and bottom aluminium angle to wall at the correct distance based on ④
- 4) Hang top return onto angle and fix with screws
- 5) Repeat for bottom return
- 6) Fold in side return. To secure, fold the triangular flaps ⑤ over and screw into aluminium angle
- 7) Repeat for the other side return

The Fitted Sign Tray

This shows the view from the back, as though it has been fixed to a transparent wall, so you can see how the fixings sit.

Still Don't Quite Get It?

We are here to help, call us and we can answer any questions that you still have.
